## Klean-Strip Boiled Linseed Oil

Page: 1

Printed: 06/27/2006  
Revision: 04/13/2006  
Supersedes Revision: 03/22/1994

### 1. Product and Company Identification

**Product Code:** QLO45  
**Product Name:** Klean-Strip Boiled Linseed Oil **Rockler SKU: 34737**  
**Reference #:** 1660C  
**Manufacturer Information**  
**Company Name:** W. M. Barr  
2105 Channel Avenue  
Memphis, TN 38113  
**Phone Number:** (901)775-0100  
**Emergency Contact:** 3E 24 Hour Emergency Contact (800)451-8346  
**Information:** W.M. Barr Customer Service (800)398-3892  
**Web site address:** www.wmbarr.com  
**Preparer Name:** W.M. Barr EHS Dept (901)775-0100

### 2. Composition/Information on Ingredients

Hazardous Components (Chemical Name)	CAS #	Percentage	OSHA PEL	ACGIH TLV	Other Limits
1. Linseed oil	8001-26-1	95.0 -100.0 %			

### 3. Hazards Identification

#### Emergency Overview

#### Potential Health Effects (Acute and Chronic)

##### INHALATION ACUTE EXPOSURE EFFECTS:

May cause irritation of respiratory tract, and cough.

##### SKIN CONTACT ACUTE EXPOSURE EFFECTS:

None known.

##### EYE CONTACT ACUTE EXPOSURE EFFECTS:

May cause irritation.

##### INGESTION ACUTE EXPOSURE EFFECTS:

Inedible -- not to be taken internally. May cause nausea, vomiting, and diarrhea.

##### CHRONIC EXPOSURE EFFECTS:

None known.

#### Signs and Symptoms Of Exposure

See Potential Health Effects.

#### Medical Conditions Generally Aggravated By Exposure

None known.

### 4. First Aid Measures

#### Emergency and First Aid Procedures

##### INHALATION:

If user experiences breathing difficulty, move to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

##### SKIN CONTACT:

wash with soap and water.

##### EYE CONTACT:

Flush eye with water for at least 15 minutes. Get immediate medical attention.

Supersedes Revision: 03/22/1994

### INGESTION:

Call your poison control center, hospital emergency room, or physician immediately for instructions.

## 5. Fire Fighting Measures

**Flammability Classification:** IIIB  
**Flash Pt:** 250.00 F Method Used: TCC  
**Explosive Limits:** LEL: UEL:

### Fire Fighting Instructions

Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Storage containers exposed to fire should be kept cool with water spray to prevent pressure build-up. Stay away from heads of containers that have been exposed to intense heat or flame.

### Flammable Properties and Hazards

RISK OF FIRE FROM SPONTANEOUS COMBUSTION EXISTS WITH THIS PRODUCT.

Oily rags, waste, and other oily materials can cause spontaneous combustion fires if not handled properly. Immediately after use, and before disposal or storage, you MUST (1) Spread out all oily materials outside to dry by flattening them out to their full size in an airy spot for 24 hours at temperatures above 40 degrees F, or (2) Wash them thoroughly with water and detergent and rinse. Repeat until you have removed all oil from all clothes, tools, rags, paper, clothing, mops, and any other materials contacted during use or as a result of an accidental spill. Make certain all wash and rinse water is disposed of properly.

### Hazardous Combustion Products

Carbon monoxide and carbon dioxide.

### Extinguishing Media

Use carbon dioxide, dry powder, or foam.

### Unsuitable Extinguishing Media

## 6. Accidental Release Measures

### Steps To Be Taken In Case Material Is Released Or Spilled

Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Shut off ignition sources; keep flares, smoking or flames out of hazard area.

Small Spills: take up liquid with sand, earth or other noncombustible absorbent material and place in a plastic container where applicable.

Large Spills: dike far ahead of spill for later disposal.

## 7. Handling and Storage

### Precautions To Be Taken in Handling

Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this container.

### Precautions To Be Taken in Storing

Keep container tightly closed when not in use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.

## 8. Exposure Controls/Personal Protection

### Respiratory Equipment (Specify Type)

For occasional consumer use - Use with adequate ventilation to prevent a build-up of vapors in confined areas. Open windows or position fans to provide cross ventilation. If a mild to strong odor is noticeable, ventilation is not adequate.

For OSHA controlled workplace and other regular users - Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLVs.

For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirators. A dust mask does not provide protection against vapors.

### Eye Protection

Safety glasses, chemical goggles, or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.

### Protective Gloves

Wear impermeable gloves. Gloves contaminated with product should be discarded. Follow disposal procedures as described in Section 5 and Section 7.

### Other Protective Clothing

Various application methods can dictate use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure.

### Engineering Controls (Ventilation etc.)

Use only with adequate ventilation to prevent buildup of vapors. Do not use in areas where vapors can accumulate and concentrate, such as basements, bathrooms or small enclosed areas. Whenever possible, use outdoors in an open air area. If using indoors open all windows and doors and maintain a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea or eye-watering -- STOP -- ventilation is inadequate. Leave area immediately and move to fresh air.

### Work/Hygienic/Maintenance Practices

A source of clean water should be available in the work area for flushing of eyes and skin.

Clothing that becomes soiled with product should be removed as soon as possible and laundered separately. Follow procedures outlined in Section 7, Handling and Storage.

Wash hands thoroughly after use and before eating, drinking, or smoking.

## 9. Physical and Chemical Properties

<b>Physical States:</b>	[ ] Gas	[ X ] Liquid	[ ] Solid
<b>Boiling Point:</b>	343.00 F		
<b>Flash Pt:</b>	250.00 F Method: TCC		
<b>Explosive Limits:</b>	LEL:		UEL:
<b>Density:</b>	7.747 LB/GL at 75.0 F		
<b>Vapor Pressure (vs. Air or mm Hg):</b>	0 MM HG at 20.0 C		
<b>Vapor Density (vs. Air = 1):</b>	> 1		
<b>Evaporation Rate (vs Butyl Acetate=1):</b>	< 1		
<b>Percent Volatile:</b>	0.2 %		
<b>VOC / Volume:</b>	0.0000 G/L		
<b>Appearance and Odor</b>			

## 10. Stability and Reactivity

**Stability:** Unstable [ ] Stable [ X ]

### Conditions To Avoid - Instability

### Incompatibility - Materials To Avoid

Incompatible with strong oxidizing agents.

### Hazardous Decomposition Or Byproducts

Decomposition may produce carbon monoxide and carbon dioxide.

**Hazardous Polymerization:** Will occur [ ] Will not occur [ X ]

### Conditions To Avoid - Hazardous Polymerization

## 11. Toxicological Information

### Toxicological Information

### Carcinogenicity/Other Information

**Carcinogenicity:** NTP? No IARC Monographs? No OSHA Regulated? No

## 12. Ecological Information

### Ecological Information

## 13. Disposal Considerations

### Waste Disposal Method

Dispose in accordance with applicable local, state, and federal regulations.
